

Cookie Statement Kansrijk Brandevoort

Kansrijk Brandevoort uses cookies and similar technologies on its website. In this cookie statement, we explain which technologies we use, why we use them and what choices you have.

1. What are cookies?

Cookies are small text files that may be stored on a computer, tablet or smartphone when you visit a website.

In addition to cookies, websites may use similar technologies that store or access information on a device.

2. Which cookies do we use?

Kansrijk Brandevoort only uses cookies and third-party services that are needed for the website to function or for features we offer to visitors.

We do not use cookies to track visitors for advertising purposes.

Functional and necessary cookies

The website may use technically necessary cookies to ensure that it functions correctly and securely.

These cookies may be used, for example, to enable the website to function technically; to secure the website; to process forms; and to remember necessary settings during a visit.

Prior consent is not required for strictly necessary and functional cookies. These cookies are not used to create personal profiles of visitors.

Google Maps

Kansrijk Brandevoort uses Google Maps on its website to show the location of places including 't BrandPunt.

Google Maps is a service provided by Google. When the map is loaded, the browser connects to Google's servers. Data such as the IP address, device information and information about the use of Google Maps may be shared with Google.

Google may use cookies or similar technologies in this process.

Because Google is a third party, Kansrijk Brandevoort does not have full control over which data Google processes or how long Google retains it.

Further information is available in Google's privacy and cookie policies.

Where consent is required to load Google Maps, the map will only load after the visitor has given consent.

3. Analytics cookies

At the time this cookie statement was prepared, Kansrijk Brandevoort does not, as far as has been established, use Google Analytics, Meta Pixel or similar marketing or tracking services.

If analytics services are added in the future, this cookie statement will be updated accordingly.

Where analytics cookies have only a limited impact on privacy and meet the legal requirements, they may be used without prior consent.

We request prior consent for privacy-sensitive analytics cookies.

4. Tracking and advertising cookies

As far as has been established, Kansrijk Brandevoort does not use advertising or tracking cookies to track visitors across different websites or create personal advertising profiles. If such technologies are used in the future, this will only happen after consent has been requested where legally required.

5. External content

The website may contain content from other websites or service providers. When such external content is loaded, the relevant provider may receive data about the visitor. This may occur, for example, when an interactive map is displayed.

Kansrijk Brandevoort endeavours to load external content that requires consent only after the visitor has given that consent.

6. Giving or refusing consent

Where consent is required for cookies or similar technologies, visitors can choose whether to allow them. Refusing non-essential cookies does not affect normal use of the website. However, it may mean that certain external features, such as an interactive map, are not displayed immediately.

Consent previously given may be withdrawn at any time through the cookie settings on the website.

After consent has been withdrawn, non-essential cookies will not be placed again unless consent is given again.

7. Deleting cookies through your browser

Cookies can also be viewed, blocked or deleted through your browser settings.

The procedure varies by browser. Consult the settings or help section of your browser for instructions.

Blocking all cookies may cause some parts of websites to function less effectively.

8. Personal data

Where personal data is processed through cookies or similar technologies, Kansrijk Brandevoort's privacy statement also applies.

The privacy statement explains, among other things, which personal data we process, the purposes for which we do so and the rights of the individuals concerned.

9. Changes

The website and the technologies used on it may change.

Kansrijk Brandevoort may therefore amend this cookie statement if, for example, new features, services or cookies are added.

The most recent version of this statement will always be published on the website.
